

Welcome to File Share – Upload Your Design in 3 Easy Steps!

We’ve made it simple for you to send us your design for custom printing. Just follow these steps, and we’ll handle the rest!

Step 1: Select Your File

Choose the design you want printed on your garment. For the best print quality, we recommend:

- File formats: PNG, JPEG, PSD, AI, SVG, or PDF
- Resolution: At least 300 DPI (dots per inch) for sharp, high-quality prints
- Transparent background: If applicable, for a clean and professional look. If you're unsure about your file quality, don't worry! Our team will review it and suggest any necessary improvements.

Step 3: We Review, Print & Ship

Our team will carefully review your design to ensure it meets printing standards. If any changes are needed, we'll reach out before production. After approval, we begin the printing process using high-quality DTG (Direct-to-Garment) and DTF (Direct-to-Film) technology to ensure vibrant prints.

Step 2: Upload & Submit

Use the upload button to send us your file. Before submitting, please:

- Double-check your design for accuracy and correct placement
- Ensure the file size meets our system requirements
- Add any special instructions (e.g., preferred print size, positioning, or color adjustments)

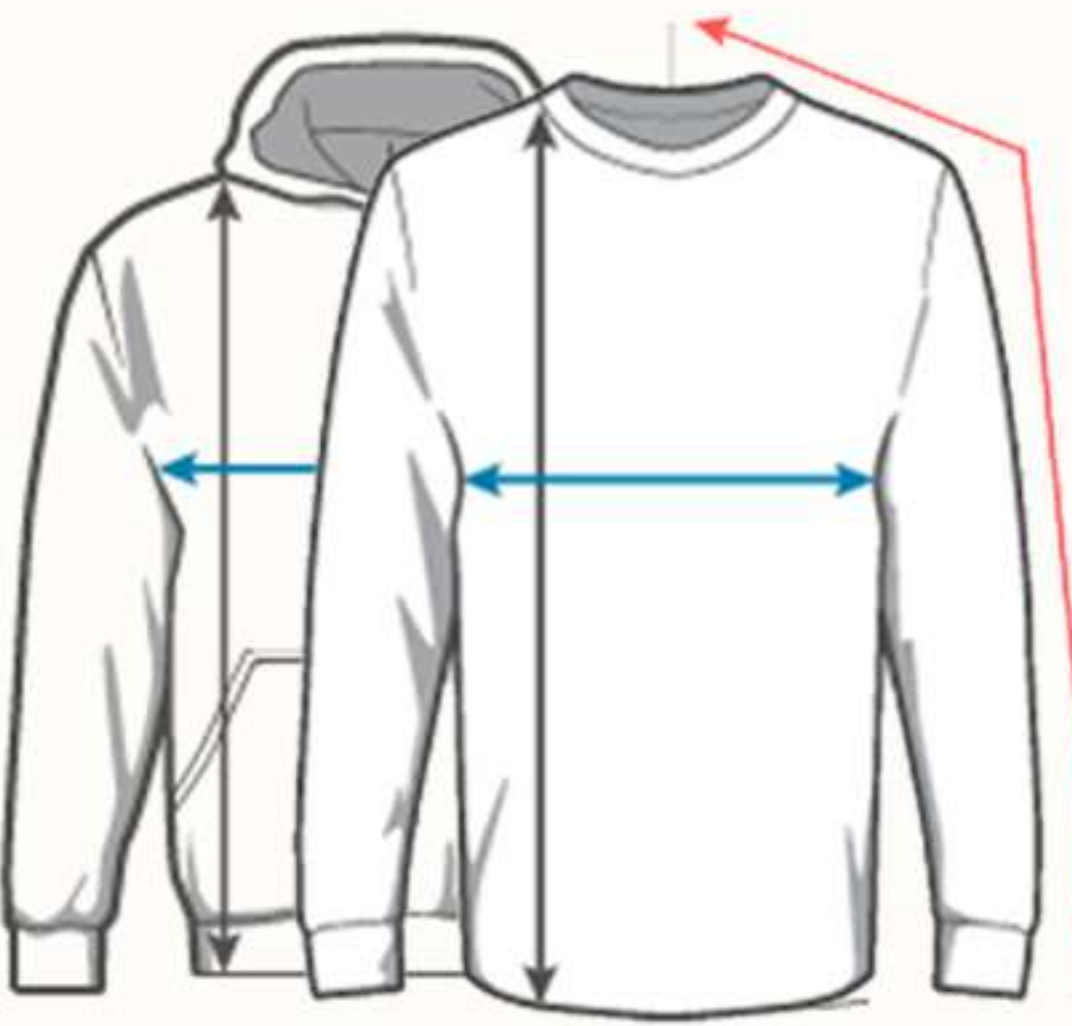

Once uploaded, you'll receive a confirmation that your file has been successfully submitted.
